

I am opposed to any attempt by the National Association of Broadcasters to limit traffic and weather channels on XM radio. These stations provide a much needed service for those of us that travel often. When I travel to other cities and regions I do not know which local stations cover weather and traffic. I do however know where to look on XM radio dial for the information that I need to stay safe. For public safety reasons, I urge the FCC to reject the NAB's petition 04-160.

Thank you
